The syllabus covers all the requisites to be learned about the stock market to become an investor/ trader. Also, enables to make informed decisions about personal finance. The methodology used by and way Shailesh Sir explains is beyond par. I attended the classes in online mode from the USA and it was an awesome experience. A must join institution to learn more about stocks and the market..

This stock market course stands out as one of the finest educational experiences I have encountered. The curriculum begins with fundamental principles and progresses systematically to cover advanced topics. Despite previously attending other courses, I found myself grappling with incomplete comprehension. However, upon enrollment in this program, I was exposed to exceptionally insightful material that surpassed my expectations.

I had a fantastic experience at the trading academy! The instructors were incredibly knowledgeable and patient, making complex trading concepts easy to understand. The hands-on approach through live trading sessions was invaluable, allowing me to apply what I learned in real-time. The course materials were well-organized, and the support staff was always available to answer questions. I feel much more confident in my trading abilities now, thanks to the trading academy. Highly recommended for anyone looking to improve their trading skills!

सर, के द्वारा दी जाने वाली जानकारी का तरीका बहुत ही अच्छा होता है, जिससे मुझे बहुत कम समय में बहुत कुछ सीखने को मिला। चार्ट को समझने, फंडल की जानकारी, इंडी पॉइंट, टारगेट और स्टॉप लॉस का सटीक और सरल नान मुझे सर से मिला।
